Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable. I have enough problems affording it as it stands now, without anyone adding more fees!

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. I do not wish to pay the same amount that high volume residential or business customers in universal service fees. It's unfair!

I am a home health care worker, I have a low wage and am on the road at any time during the day or night (from 6:30 a.m. to 11:30 p.m. some days). I use my wireless phone for safety and security. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Carla Fuller
